

ARCHOIL AR5600 CORROSION PASSIVATION & LUBRICANT AEROSOL

AR5600 provides a long lasting, water-displacing, corrosion passivation, via a micro coating on all surfaces. It was developed to address the shortcomings of other anti-corrosive products on the market, particularly with long-term protection in extremely corrosive and demanding environments.

AR5600 forms a bond to metal alloys with deep penetrating characteristics.

FEATURES / BENEFITS:

- 🔥 Corrosion Passivation and Lubricant Aerosol
- 🔥 Penetrates Surface to Lock Out Corrosion
- 🔥 Withstands Extreme Environments
- 🔥 Low Coefficient of Friction
- 🔥 Easy to Use

INSTRUCTIONS:

Shake can before use. **AR5600** can be added to already corroded surfaces but for best results remove existing oxidation and contaminants first. Spray area to be treated.

PACKAGING:

500ml Aerosol

ARCHOIL AR5600 CORROSION PASSIVATION & LUBRICANT AEROSOL
