

ARCHOIL AR9100 INDUSTRIAL FRICTION MODIFIER AEROSOL

AR9100 Aerosol is an advanced lubricating spray utilising Archoil's proprietary nanoborate technology.

AR9100 provides excellent penetrating, load carrying, anti-wear and anti-corrosion properties with the active nanoborate delivering a chemical bond to metal surfaces.

AR9100 is suitable for metal-based components, hinges, chains and moving parts where lubrication and protection are required.

FEATURES / BENEFITS:

- 🔥 Cleans, Lubricates and Protects
- 🔥 Strong Ionic Bond with Host Metal
- 🔥 Extreme Pressure Agent - 1,800 KG
- 🔥 Surface Coefficient of Friction 0.037
- 🔥 Anti-Corrosion Protection

INSTRUCTIONS:

Shake can before use. For best results clean and degrease area first. Spray area to be treated or protected.

PACKAGING:

500ml Aerosol
